

Littlehampton Town Council

Records Retention and Disposal Policy

1. Introduction

- 1.1 Littlehampton Town Council recognises that its records are an important public asset, and are a key resource to effective operation and to accountability. Like any asset, they require careful management and this policy sets out the Council's responsibilities and activities in regard to the management and retention of its records. The term "records" applies equally to paper and electronic records.
- 1.2 The effective management of records in all formats depends as much on their efficient disposal as well as their long-term preservation. Records and Disposal Policies are essential for effective records management. As a local authority the Town Council must be consistent in the way it handles and disposes of its information. These guidelines will assist the Council in meeting local needs whilst providing a consistent approach to record keeping across the Council.
- 1.4 These guidelines are also extremely important in the context of both Freedom of Information Act 2000 and Data Protection Act 2018 compliance. The public expect equality of openness and availability across the government sector, and stakeholders will expect that their interests are being safeguarded. These guidelines are instrumental in achieving these aims.

2. Scope

- 2.1 The guidelines have been issued to support Littlehampton Town Council staff in the areas of records management, records retention, Data Protection Act, Freedom of Information Act and the Local Government Act.
- 2.2 They are intended to cover all records and information from creation through to either their destruction or retention for historical or research purposes.
- 2.3 Backup copies on alternative media (e.g. server, microfilm or paper) should also be destroyed, in accordance with these guidelines. This is to ensure compliance with Data Protection and Freedom of Information Act legislation requirements.

3. Objectives of the Retention Guidelines

- 3.1 The objectives of these guidelines are to:
 - i) Assist in identifying records that may be worth preserving permanently.

- ii) Prevent the premature destruction of records that need to be retained for a specified period to satisfy legal, financial and other requirements of public administration.
- iii) Ensure consistency in the destruction of records after specified periods as required to meet Data Protection obligations.
- iv) Improve records management practices within the Town Council.

4. Transfer of Records to Archival Storage

- 4.1 Records identified as 'permanent' should be marked 'Archive'.
- 4.2 If you wish to transfer permanent records to an archive please contact the Assistant Town Clerk.

5. Litigation

- 5.1 Where litigation is possible, the records and information that might be required should not be amended or disposed of until the possibility of litigation has been removed.

6. Destruction of Records

- 6.1 The destruction of records must be logged in the Documents Destroyed Records Database. The Deputy Town Clerk will have overall responsibility for the register of destroyed records and will retain confirmation of destruction certificates where the shredding has been outsourced.
- 6.2 Records should be destroyed using the appropriate method, either shredding for paper or deletion for electronic records.

Appendix 1: Records Retention and Disposal Schedule

Records Retention and Disposal Schedule			
Retention Period – unless otherwise stated, the period in years refers to how long the document should be kept <u>after the year in which the work is over</u> (employment ceases, end of contract, end of financial year, event or hire finishes etc)			
Confidential waste – Before shredding (or deleting batches of documents online or emails) the destruction MUST be documented here G:\Staff Resources\Record Retention & Disposal
